

We need to stand strong & together.

This is the time to fight for our rights!!!

Compass makes some movement, but it's not enough.

- 1) 2 year contract instead of a one year contract.
- 2) Wage increases .10 cents 1st year (versus nothing before) and 15 cents 2nd year
- 3) The company agreed to pay all of our medical cost for the next two years *(They agreed to pay the health premium increases of \$35/per person per month in 1st year, and another \$50/month in the second year).*
- 4) Pension increase – A 1 cent increase over three years is a slap to us
- 5) Overtime cuts -

We will be talking to you about more job actions in our fight for a fair contract.

Let's keep those "fair contract buttons" on our uniforms until we get a FAIR CONTRACT from Compass at the Boeing plants.
